BEGINS

We went to parish. There was rumor that the regional church council drafted a declaration that cemeteries cannot be used anymore. The local church wanted to read a letter on that. Asked priest for the letter. Priest said come back at a certain hour. We returned at that hour. The priest wasn't there. We were told to wait in the courtyard. When we went in, the door was closed behind us, and then began to be hit by the man in there. We yelled for help and fortunately the cab driver was a big man, so he came in and saved us from beating.
